Vuforia Engine Academic Plan

An innovative AR SDK offering that provides educators and students with access to Vuforia Engine and all of its premium features for educational use. The plan allows users to quickly and easily develop and deploy AR applications.

WHY VUFORIA ENGINE?

Creative Empowerment

The robust AR technology of Vuforia Engine empowers students to build unique AR experiences for new or existing applications.

Most Flexibility

Vuforia Engine enables students to harness dynamic recognition that can target images, 3D objects, and environments.

Best-In-Class Computer Vision

Computer vision enables applications to see like we do, which lets them understand how digital objects should interact with the environment.

Broadest Reach

Vuforia Engine is optimized for most iOS, Android, and Universal Windows Platform devices on the market.
