

Mike DiTullio

President and Chief Operating Officer

Mike DiTullio is President and Chief Operating Officer of PTC, responsible for the company's day-to-day business. In this role, Mike oversees product development, sales and marketing, customer success, strategy, and IT across both the Digital Thread and Velocity Business Units.

Since joining PTC over twenty years ago, Mike has led teams in every part of the world where PTC operated. Most recently he was president of PTC's Digital Thread group, consisting of seven businesses with 5,000+ employees that bring in more than \$1.5B in annual revenue. Mike was also instrumental in helping PTC transition to a subscription business model and adopt a digital-first marketing strategy. Both of which were key to PTC's ability to deliver sustained growth during the pandemic-induced economic downturn and have become foundations for PTC's new business model.

Mike is a member of the board of directors for The National Association of Manufacturers (NAM).

Prior to PTC, he was worldwide marketing product manager for Abbott Laboratories' Diagnostics Division and an Executive Officer in the United States Army. Mike earned a B.S. in Management from the United States Military Academy at West Point.
