

# JUNE 10 PRODUCT BREAKOUT SESSIONS

	Breakouts				
	PTC Portfolio	Windchill	Creo 1	Creo 2	Codebeamer / ALM
<b>11:00 AM – 11:50 AM</b>	Connecting the Engineering Thread: PTC's Vision for Integrated Product Engineering	Windchill Vision and Roadmap Deep Dive	What's New in Creo 13—and What's Next		The Next Era of Configuration Management
<b>12:00 PM – 12:30 PM</b>		Windchill+	Streamlined Product Development with CAD Consolidation	The Power of Simulation-Driven Design	Ask Us Anything: Your Use Cases, Your Questions
<b>1:30 PM – 2:10 PM</b>	Introducing Asset360: A New Foundation for Asset Intelligence	Project Echo: Collaboration Across the Enterprise	Creo AI Assistant: Your Engineering Co-Pilot	Strategic Advantages of a Model-Based Approach	Codebeamer AI: AI-Powered Requirements and Engineering Decisions
<b>2:20 PM – 3:00 PM</b>	Bringing CAD and PLM Together: Creo, Windchill, and the Future of Connected Engineering	Windchill AI: Accelerating Innovation			Scaling ALM for Enterprise Performance and Reliability

	ServiceMax	Servigistics	Onshape/ Arena
<b>11:00 AM – 11:50 AM</b>	ServiceMax Roadmap: Strengthening Asset Intelligence and AI-Driven Delivery	Servigistics' Service Supply Chain Optimization Innovation and Roadmap	Onshape Cloud-Native CAD and PDM: Introduction and What's New
<b>12:00 PM – 12:30 PM</b>	Product Structure: Connecting Product Design to Service Decisions	Servigistics AI Assistant in Action	Arena Cloud Native PLM and QMS: Introduction and What's New
<b>1:30 PM – 2:10 PM</b>	Workbenches: Standardizing Repair and Test Execution Across Environments	Next-Generation Forecasting: AI, Machine Learning, Multivariate, Time Series	Onshape Cloud-Native CAD and PDM: Introduction and What's New
<b>2:20 PM – 3:00 PM</b>	Orchestrating Complex Service Work: Dependencies, Calendars, and Team-Based Execution	Servigistics' Multi-Agent System: The Future of Closed Loop, Self-Healing Service Supply Chains	Arena Cloud Native PLM and QMS: Introduction and What's New
