

Brian Thompson

General Manager, Computer-Aided Design (CAD)

Brian Thompson is General Manager of the Creo Computer-Aided Design (CAD) Segment at PTC. In this role, he oversees product strategy, development, and operations for the Creo CAD and PTC Mathcad engineering calculations businesses. Since joining in 2009, Brian has been instrumental in the development of PTC's award-winning Creo CAD solution. Under his leadership, this 30-year business continues to enjoy above-market growth rates and a reputation for the highest levels of innovation in support of customer needs.

Prior to joining PTC, Brian worked for more than 15 years in electro-mechanical product development in a variety of discrete manufacturing industries. He holds six product design patents, many of which are on products sold today. Brian earned a bachelor's degree in mechanical engineering and a master's degree in computer science from Rensselaer Polytechnic Institute in Troy, NY.
