## PROBLEM SOLVED: Area of a Spherical Triangle

For the Mathcad Community Challenge July 2022, we challenged you to submit PTC Mathcad worksheets solving for the area of a spherical triangle. Here's how your peers answered the challenge.

## BLOG: Solving Iterative Problems

Mathcad expert Brent Maxfield writes how determining the depth of a mine shaft is actually an iterative problem, and walks through using solve blocks and the *so/ve* keyword to get to its answer. Apply the principles to your own work with the included Prime worksheet!
