

DRIVE RESULTS IN SAFETY, PRODUCTIVITY, AND PROFITABILITY WITH AUGMENTED REALITY

Augmented reality enriches the employee experience and supports the employee lifecycle by helping employees at all stages of their career excel. Manufacturing and service organizations that have implemented augmented reality in their onboarding and safety programs as well as in the field for procedural guidance and communication with experts are seeing results for both workers and the business as a whole.

Compared to non-users, **COMPANIES USING AUGMENTED REALITY** enjoy:

42%	Greater year-over-year increase in profitability
38%	Greater likelihood of experiencing a decrease in time-to-proficiency over the past year
32%	Greater year-over-year increase in employee productivity
20%	Greater year-over-year decrease in time-to-decision
17%	Greater Hands-on-Tool-Time (HoTT)
10%	Lower Total Recordable Incident Rates (TRIR) on average
