Build Once, Reuse Always: Mathcad Templates Webinar Registration

PTC is hosting two live webinars in September about Mathcad's templates feature. Our presenters will show you how to use templates to their fullest extent, saving you ample amounts of time. Beginners are welcome! The two webinars have the same base content, so pick which best suits your schedule: September 8 at 2 EDT, or September 10 12:00 BST.

Save Your Seat!

Different Methods of Displaying Images Blog

PTC has completely rewritten our blog article about inserting images into your Mathcad worksheet. This new edition takes into account the worksheet background color option added to Mathcad Prime 12. Additionally, a new section on a fourth, unofficial method allowing for dynamic image display with the Excel Component has been added to the article.

Share How You Use Mathcad Templates Discussion

As a tie-in for the upcoming webinar, we opened a discussion on your current Mathcad templates. Do you have a heavily customized set-up for your organization? Do you reuse a functions library in an include region? Share your best practices by logging on to the PTC Community.

A Message from Brian Thompson Video (and free trial)

Brian Thompson, the general manager of PTC's engineering calculations business, provides an overview of how Mathcad Prime 12 boosts productivity by so much that he's transformed from an amateur guitarist to a global superstar. What could you do with Mathcad Prime 12? Download the free trial from the same page!
