

**Kevin Wrenn**

**Chief Product Officer**

Kevin Wrenn is EVP and Chief Product Officer at PTC, where he oversees all aspects of the company's Digital Thread product strategy, development, and operations, with a focus on strengthening PTC's leadership across fast-evolving markets. In this role, he drives the vision and execution for all areas of product development and management, including Research & Development (R&D), Cloud Services, Technical Support, and the company's product segments (CAD, PLM, IoT, AR, ALM, and SLM).

Under Kevin's leadership, PTC's CAD, PLM, IoT, and AR products have consistently been recognized as industry leaders by analysts since 2019.

Throughout his 30-year tenure at PTC, he has held numerous leadership positions across product segments and global services.

Outside of PTC, Kevin serves on the board for Boston University's College of Engineering Product Innovation Center (EPIC).

He holds a Bachelor of Science in Manufacturing Engineering from Boston University and a Master of Computer Science in Software Systems from Rensselaer Polytechnic Institute.
