

Kevin Wrenn

Executive Vice President of Products

Kevin Wrenn is EVP of Products at PTC, responsible for overseeing the CAD, PLM, and IoT product portfolio and strategy as well as a global R&D team. He is focused on growing and enhancing PTC's product leadership roles in many fast-changing markets.

In his over 25 years at PTC, Kevin has held many leadership roles in Global Services including 5 years as the Divisional General Manager of the PLM Segment. Under his leadership PLM successfully outpaced market growth and improved profits by accelerating product innovation, go-to-market execution, and product development efficiency. Kevin played a significant role in attaining PTC's ongoing recognition as the top PLM software company from leading analyst firms like Forrester Wave, Quadrant Knowledge Solutions, Frost & Sullivan, and ABI Research.

Kevin earned a B.S. in Mechanical Engineering from Boston University and a M.S. in Computer Science from Rensselaer Polytechnic Institute.
